

Dear Federal Communications Commission:

Regarding the two petitions filed seeking to have states adhere to a less restrictive national standard for unwanted sales calls, please do not change Indiana's Do Not Call law!

Please do not permit more unwanted telemarketing calls to Indiana residents by allowing businesses to contact previous customers even though they may be registered on the state's Do Not Call list limiting such sales calls. In addition, please do not allow telemarketers to avoid Indiana's Do Not Call law merely by calling from outside the state.

Thank you for your consideration,

Jeanine Phipps
(alias – someone who does not want to be bugged at home!)
